

General Diagnostic Menu Access Codes

Star Trac

Maintenance Mode includes all of the items of Manager Mode, plus additional data that is automatically saved to properly troubleshoot in case of a problem.

To engage Maintenance Mode:

Press and hold "0", "2" & "START" keys together. While holding the "0" & "START" keys down, release the "2" key only.

Once the treadmill is in Maintenance Mode, you may use the following keys:

INCLINE UP/DOWN KEYS: *Displays the next or previous parameter.*

- / + SPEED KEYS: *Allows the variable to be changed within the parameter.*

START KEY (ENTER KEY): *Saves the value if changed in the EPROM (software).*

NOTE: START KEY (ENTER KEY) must be pressed for each value changed.

STOP KEY: Exits Manager Mode and restarts treadmill with a "warm start."

The Field Tech app has libraries of assembly manuals, tech tips, and how-to's that will help technicians navigate daily tasks. Check us out @ fieldtechfitness.com
